DETAILED ACTION

Response to Amendment

The amendment filed 9/9/05 is objected to under 35 U.S.C. 132(a) because it introduces new matter into the disclosure. 35 U.S.C. 132(a) states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: although the specification details the use of a reinforced skin that is a "composite material", there is no support in the specification for the "composite material" to be a "solidified" composite material.

Applicant is required to cancel the new matter in the reply to this Office Action.

Specification

The specification is objected to as failing to provide proper antecedent basis for the claimed subject matter. See 37 CFR 1.75(d)(1) and MPEP § 608.01(o). Correction of the following is required: there is no support in the specification for the reinforced skin to be a "solidified" composite material.

Claim Objections

Claims 47 and 53 recite the limitation "said horizontal side wall" in, respectively, in lines 9 and 15. There is insufficient antecedent basis for this limitation in the claim.

Allowable Subject Matter

Claims 47 and 53 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Claims 48-52 and 54-58 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Claims 59-62 are allowed.
